

Land transportation is the most convenient and popular way of cargo delivery. There are numbers of advantages in land transport, for instance, planned delivery time, the opportunity of choosing the vehicle especially for each cargo, taking into account the size and capacity, moreover, due to the branching roads the delivery is possible to any point of Europe and Asia without intermediate overloads.

Bora Sped Company accomplishes the organization of international land transportation. Our company maintains a high level of quality during the whole time of delivery. We offer to our customers the delivery of the following types of cargos: general, dangerous/ADR, perishable, large-dimension and collected.

Our target is comprehensive approach for best solutions of all logistic tasks and questions. At the customer's option we can organise warehouses consolidation, cargo insurance, the customs escort and customs clearance of cargo.

Our services of international land transportation are directed to all EU countries, Russia, Belarussia, and other large countries worldwide.

Close cooperation with well-known carriers allows us to offer our customers economically sound options of organized land transportation. In addition, our partnership with the leading agents of the CIS and European countries enlarges our possibilities and providing services.

Our motto: speed, accuracy, responsibility.
