

Air traffic is the most effective mean for fast freights delivery. In case of immediate and long distance transportation of such cargos as perishable goods or natural flowers, air traffic is indispensable and most guaranteed way of carrying the goods.

BORA SPED Company is able to arrange for its customers air traffic delivery without any restrictions in size or stowing dimensions of the carrying cargos.

BORA SPED Company cooperates with major air traffic partners as the inter-European as well as at international air lines. This benefit cooperation gives to our Customers a strong possibility of fast delivery to any necessary city of the world. Our company has perfectly mastered the perspective directions of the air traffic in Europe, USA and the countries of South-East Asia.

At the customer's option, BORA SPED Company will take a solution of all the issues concerning the preparation of cargo for air transportation. We will settle all the questions connected with customs clearance as well as the outgoing documentation for the receiving of the goods for free use, before the cargo dispatch.
